XVI	**Final Examination**		

Individual Presentation/Group Presentation/Class Participation Guideline: Group presentations/class participations will become the main focus of the sessions. It is expected that the students will be using the Power Point system during their presentation. Group presentations/class participations are the most effective in sharpening your ability in understanding the materials being discussed. The assigned chapters are intended to give you practice in assembling materials, data, and analysis to support an understanding of the subject in the real world. Furthermore, this method will provide a vehicle by which to apply the theories, concepts, and analytical devices. Finally, the discussion forum provides an opportunity to argue your position and to learn from others by listening to their comments and criticisms.

We recommend that you read your materials more than once. As part of your preparation for class, it is expected that you analyze the materials in your group. In class, we will examine completely all aspects of the situation: facts, assumptions, alternatives, and recommendations.

Midterm Paper Guideline **:** Written Examination OR Group Project OR Group Presentation OR Individual Project

Final Paper Guideline : Written Examination OR Group Project OR Group Presentation OR Individual Project
